

400V steel dent puller with 3800A output current, ideal for all steel straightening and dent pulling jobs.

Quite efficient thanks to 2 guns, one automatic and one with trigger, and its user friendly control panel.

SIMPLE TO USE

Only 2 parameters to select :

- the output power level (amongst 11 levels)
 - the tool which is used (amongst 7 tools)
- => **no need to select the welding current and welding time.**

Manual triggering

The welding occurs when pressing the trigger when the tool is in contact with the part to straighten.

Automatic triggering

The welding is triggered automatically by a simple contact between the tool and the part to straighten.

Cables length

Power supply: 8 m

Earth: 2 m

Gun: 2 m +3 m

INCLUDED

Spotter Box Pro
Ref: 050075
