

# PRESTOTIG 315 AC/DC

The TIG AC/DC  
for superior performance !

WARRANTY  
**3**  
YEARS

## ADVANCED TECHNOLOGY MADE SIMPLE

### PRESTOTIG 315 AC/DC

is an industrial AC/DC TIG welding machine designed and manufactured using the latest inverter digital technology. This machine has been designed and built to perform in the most hazardous environments at high outputs: 300A at 35% duty cycle both in TIG AC and TIG DC application. The controller provides all the features you would expect from industrial AC/DC TIG inverter welding machines combined with a user-friendly front panel layout, setting advanced TIG parameters has never been so simple!

The top class features like the 2A minimum current, the multiple AC mode selection (including four different wave shapes), the optimized TIG start with adjustable electrode type and HF polarity, makes the unit the right choice to suit any application. It can be simply changed to water-cooled by adding the COOLERTIG 4 water cooler. A robust, stable and well equipped cart is available for easy movement of the unit.

#### Output

#### Input

### Advantages

- › Rugged construction electrical safety (IP23)
- › Full function user-friendly control panel
- › Water Coolers and Cart available

### Benefits

- › Ideal for the harshest environmental conditions.
- › Easy to set all welding parameters
- › Easy transportation on the welding sites

# PRESTOTIG 315 AC/DC

## Features

- › Advanced inverter technology for superior TIG performance
- › Superb welding characteristics with TIG AC, TIG DC and MMA processes
- › Adjustable cleaning and penetration for perfect aluminium welding
- › Variable AC frequency (40-400Hz) for control of travel speed and penetration
- › Full function user-friendly control panel layout with graph and a numeric display make it easy to set all welding parameters
- › PFC (Power Factor Correction) advantages 30% more output current with the same input current
- › Water Cooler and Cart available

## Front panel

- ① Polarity setting
- ② Process setting
- ③ Trigger mode
- ④ AC mode
- ⑤ Meters (Volt/Amp)
- ⑥ Memory
- ⑦ Current Control
- ⑧ Advanced functions

## Applications

### Heavy outdoor & indoor applications

- ✓ Aerospace
- ✓ Motorsports
- ✓ Shipbuilding
- ✓ Education
- ✓ Fabrication

## Technical characteristics

Primary Voltage (50-60Hz)	230/400V/3Ph
Current Range (A)	2-300
Duty cycle at 40 °C	300A/22V/35% 200A/18V/100%
Fuse size (A)	32/20A
Weight (kg)	42
Dimensions H x W x D (mm)	545 x 290 X 660
Protection	IP23

## To order
